Commissioner for Patents

Alexandria, VA 22313-1450

Dear Madam/Sir:

To comply with 37 CFR §§1.97 and 1.98, Applicants submit the enclosed Form PTO/SB/08A, and copies of the cited references, to the extent required.

In accordance with MPEP §609 and §707.05(b), Applicants request that the cited references be given thorough consideration, and that the Examiner cite the references in the prosecution history by initialing the Form next to the citations. Applicants request such initialing even if the Examiner does not consider: (1) a cited reference to be sufficiently pertinent to use in a rejection, or (2) the guidelines for a citation to have been fully satisfied. Applicants make this request so that the cited references become cited on the face of a patent issuing from the above-referenced application.

Applicants submit this Information Disclosure Statement in compliance with the duty to disclose information material to patentability under 37 CFR §1.56, but, by listing the references, Applicants are not admitting that the references are necessarily relevant or prior art. Applicants intend no representation that the references represent the results of a complete search. Applicants anticipate that the Examiner, in the normal course of examination, will make an

independent search consistent with 37 CFR §1.104. Applicants also anticipate that, in the course of such search, the Examiner will review for relevance the cited references, even if not initialed.

Applicants presume that the Examiner is aware of the scope of the disclosures and claims, as well as any issues raised, searches conducted, and examination results in the parent international patent application (*i.e.*, International Patent Application No. PCT/US2004/036007), as well as the grandparent patent application (*i.e.*, U.S. Provisional Patent Application No. 60/515,946). Applicants also presume that the Examiner will take those scopes, issues, searches, and examination results into account when examining the instant application. If the Examiner needs additional information regarding either application, Applicants request that the Examiner notify the Undersigned.

Pursuant to 37 C.F.R. §1.98(a)(2), Applicants have not enclosed a copy of any cited published U.S. patent reference. Applicants, however, are happy to provide copies of any such reference upon request from the Examiner.

If, however, Applicants do owe any such fee(s), the Commissioner is hereby authorized to charge the fee(s) to Deposit Account No. **02-2334**. In addition, if there is ever any other fee deficiency or overpayment under 37 C.F.R. §1.16 or 1.17 in connection with this patent application, the Commissioner is hereby authorized to charge such deficiency or overpayment to Deposit Account No. **02-2334**.
